Google Drive Security Scan Report

Generated on: August 08, 2025 at 06:51 PM

Executive Summary

Metric	Value
Total Files Scanned	77
Files with Sensitive Data	30
Clean Files	47
Scan Success Rate	100.0%
Total Findings	79

Risk Assessment

Risk Level	Percentage	Description
MEDIUM	39.0%	30 out of 77 files contain sensitive data

Security Recommendations

■ **MEDIUM PRIORITY**: Enhance security posture
• Review files with sensitive data
• Implement data classification
• Consider encryption for sensitive files
General Recommendations:
• Regular security scans and monitoring
• Implement data loss prevention (DLP) policies
• Employee security training and awareness
• Regular backup and disaster recovery planning
