Google Drive Security Scan Report

Generated on: August 08, 2025 at 06:45 PM

Executive Summary

Metric	Value
Total Files Scanned	77
Files with Sensitive Data	0
Clean Files	77
Scan Success Rate	100.0%
Total Findings	0

Risk Assessment

Risk Level	Percentage	Description
LOW	0.0%	0 out of 77 files contain sensitive data

Top Security Concerns

No high-risk files identified.

Security Recommendations

■ **LOW RISK**: Maintain current security practices
• Continue regular security monitoring
• Implement preventive measures
• Regular security assessments
General Recommendations:
• Regular security scans and monitoring
• Implement data loss prevention (DLP) policies
• Employee security training and awareness
• Regular backup and disaster recovery planning
